PRECIOUS METALS

Corporate Presentation
February 2026

TSX-V: NTH . OTCQB: CCWOF . FF: QN3

FORWARD LOOKING STATEMENTS

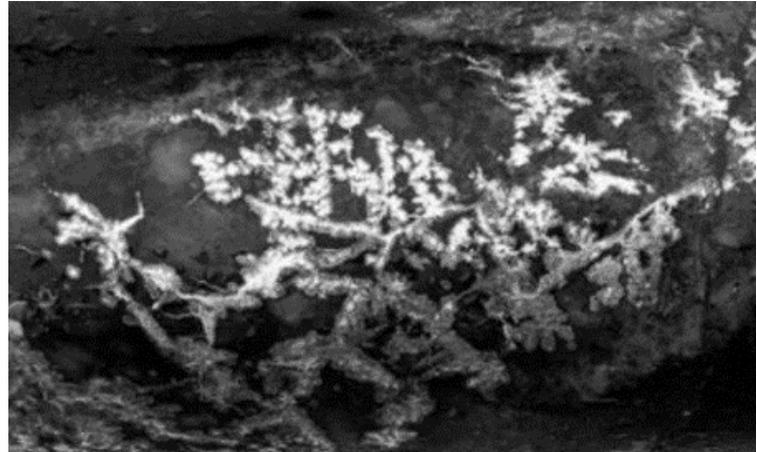

DISCLAIMER

Neither the TSX Venture Exchange nor its Regulation Service Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this material.

This presentation may contain forward-looking statements including but not limited to comments regarding mineral resources and the timing and content of upcoming work programs, geological interpretations, receipt of property titles, potential mineral recovery processes, etc. Forward-looking statements address future events and conditions and therefore, involve inherent risks and uncertainties. Actual results may differ materially from those currently anticipated in such statements. The Company does not undertake to update any forward looking information in this presentation or other communications unless required by law.

QUALIFIED PERSON

The technical information in this corporate presentation was reviewed and approved by Nord Precious Metals Mining Inc. Chief Executive Officer Frank Basa, P. Eng., who is a Qualified Person in accordance with National Instrument 43-101.

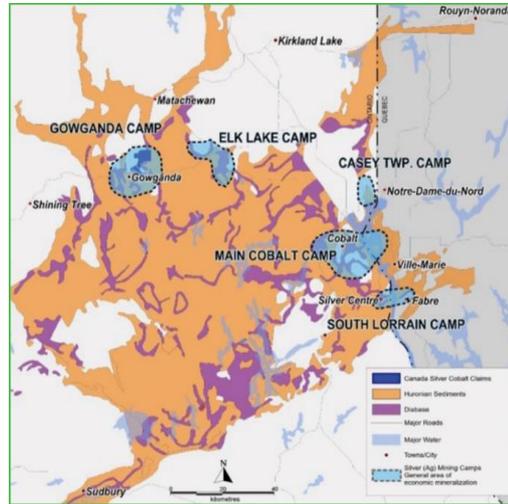

Nord Precious Metals

The Cobalt Camp

Birthplace Of Canadian Hard Rock Mining

Located along the Abitibi Greenstone Belt, the Castle Mine produced 9,500,000 oz silver with 300,000 lbs cobalt in the 1900s

Silver And Cobalt

The Castle Mine was among the highest-grade silver producers in the Camp

Historic Production:
500,000,000 Oz SILVER
30,000,000 Lbs COBALT

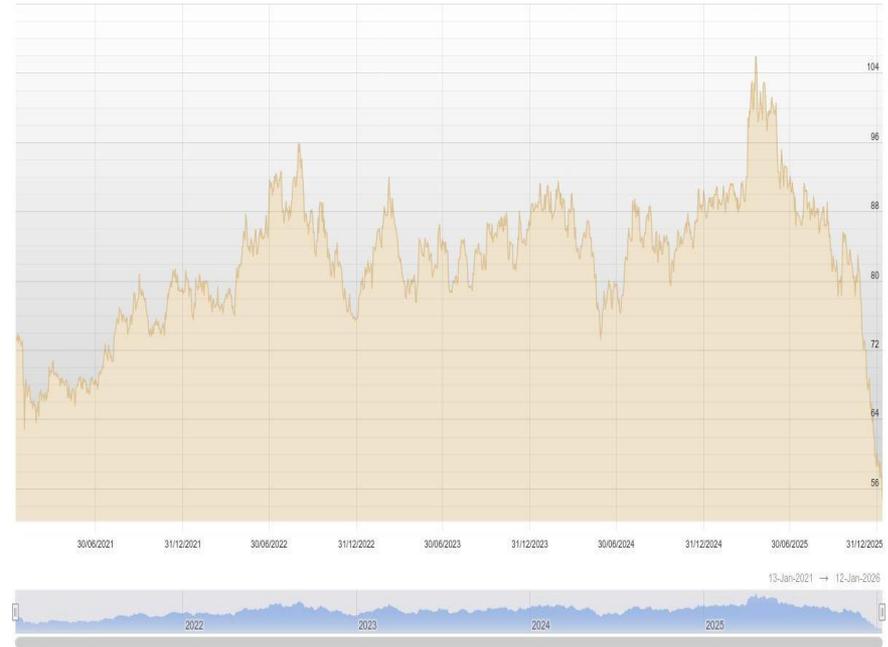

Nord Precious Metals

Why Now: The Moment for Ontario Silver

Stephen Lecce @Sflece · Nov 4, 2025

"You can get a permit in 10 weeks. You can't get a permit anywhere in the world in 10 weeks — but you can in Ontario."

— Frank Basa, Nord Precious Metals

Ontario's 1P1P framework is unlocking investment, jobs, and opportunity across the North.

From critical minerals to precious

[Show more](#)

Gowganda Area Property

Castle, Castle East & New BMR Lease Acquisition (Jan 2026)

~58 sq.km consolidated land package

High-Grade Silver Discovery

- ▶ 70,380 g/t Ag (2,053 oz/ton) over 0.3m
- ▶ Within 4m core interval grading 7,259 g/t (212 oz/ton)
- ▶ 29 modeled veins via 3D geological analysis

Historic District Production

- ▶ ~60M oz silver within 2km radius
- ▶ 550M oz Ag total across Cobalt-Gowganda Silver district

Next Year

Short Term Schedule

- 1 Review oriented core and down hole camera vein structure
- 2 Develop resource model
- 3 Complete drill program, leading to updated 43-101 resource
- Obtain recovery permits for tailings mining beginning in 2026

The Castle East Property

Nord Precious Metals Boasts the Highest Silver Grades in the World

Drill Highlights include:

89,859 g/t Ag (2,621 oz/tonne Ag) over 0.30m

Gold Equivalent: 42.96 oz/tonne AuEq

50,583 g/t Ag (1,626 oz/tonne Ag) + 0.30% Co over 0.60m

Gold Equivalent: 24.19 oz/tonne AuEq

70,380 g/t Ag (2,263 oz/tonne Ag) + 2.61% Co over 0.30m

Gold Equivalent: 33.65 oz/tonne AuEq

The Castle East high-grade discovery is just the beginning of what is possible at the Castle Property where there is 2 km of largely unexplored area between Castle East and the Castle Mine. Early prospectors only walked the ground looking for veins visible at the surface.

The Castle Project

Excellent Infrastructure

Located In An Established Mining District

First Nations

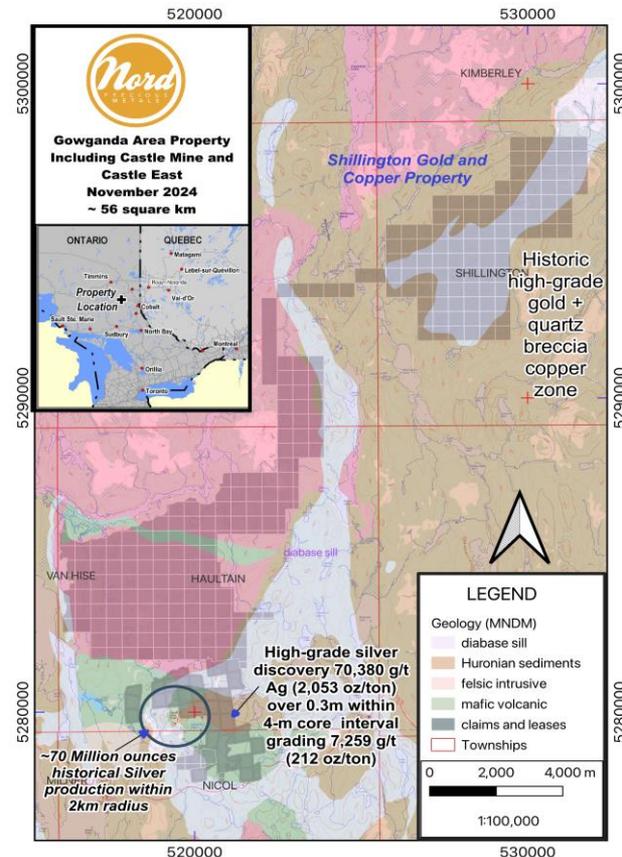

Strong Relationship With All Agreements In Place

Previously Producing Mine

Includes All Three Former Existing Mine Shafts

Exploration Potential

In Miller Lake Basin, Where Only Periphery Has Been Explored

Nord Precious Metals

The Castle Expansion

Major Acquisition*

Increased Total Castle Leased Area By 40%

Expanded Resources

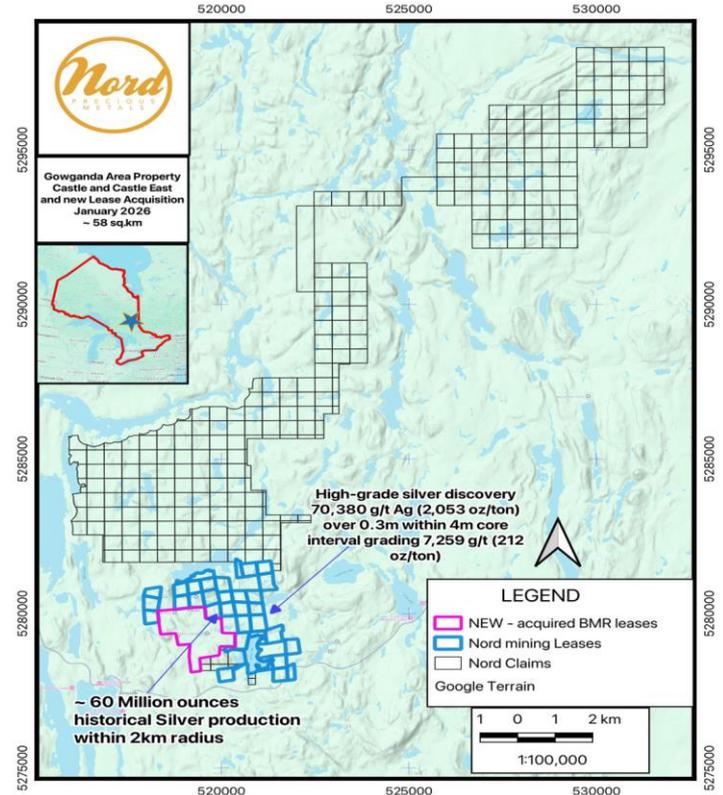

+2.9 Million Ounces of Historical Estimated Silver Resources

Boosts Silver Potential

Added Abundant Tailings and 4 Production Shafts

Enhanced Path to Production

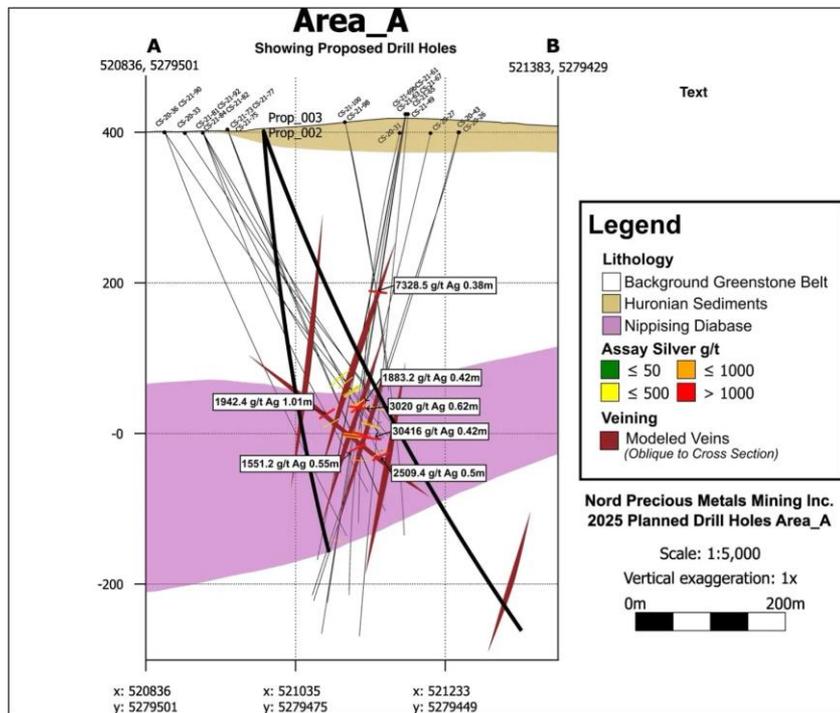

Consolidates Feed Position For TTL Processing

* Announced in news releases January 5 and 13, 2026

Exploration Update

Castle East Drill Program

Phase 1 Drill Program: 3,600m

- First phase of planned 30,000m program
- Targeting 7 modelled veins at multiple depths
- Testing veins above/below Nipissing Diabase
- Lower contact vastly under-explored to 600m

3D Geological Model (Aug 2025)

- RMG Leapfrog analysis of 75,000m drill data
- 29 silver veins identified across vein network
- Ag + Au + critical metals mineralization
- Deep GPR survey completed

February 2026 Update

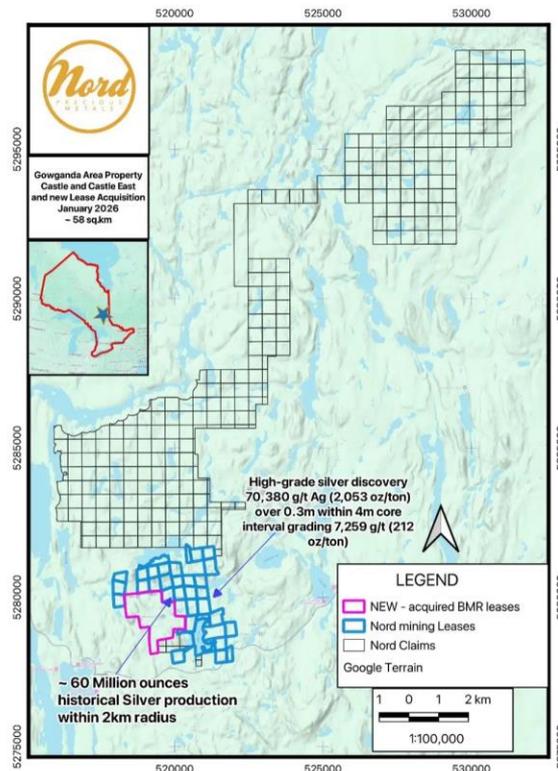

Gowganda Silver Camp Consolidated

Strategic Acquisition

- ▶ Total lease area increased 40% to 789.7 hectares
- ▶ Historical tailings resource expanded by ~2.96M oz Ag (Indicated, 2011 estimate)
- ▶ Consolidates 8 historic production shafts across the district

Historic Mines Acquired

- ▶ Miller Lake-O'Brien (Siscoe): ~42M oz Ag produced
- ▶ Millerett and Bonsall operations
- ▶ 3 of the 5 largest past-producing mines

~2.96M oz Ag
Added (Historic)

789.7 ha Total
Lease Area

60M+ oz Camp
Ag Production

8 Shafts
Consolidated Total

Integrated Silver Cobalt Producer

Path to Production

Three Feed Sources for TTL

- 1 Castle Silver Tailings**
Tailings, waste rock at Castle property
- 2 Beaver Silver Tailings**
Historic Beaver tailings deposits
- 3 Gowganda Silver Tailings**
Newly acquired ~2.96M oz Ag resource

TTL Laboratories

Only permitted milling facility in the Cobalt Camp

TTL: Proven Capability

- Produced 1,000 oz silver bar from Camp material
- 24 tpd gravity plant operational
- 1M+ oz/yr bullion furnace,
- 6,000 assays/month capacity

TECHNICAL TEAM

MATT HALLIDAY P.GEO

Advisor, 15+ years of exploration and development worldwide including narrow-vein deposits (SGS, Kirkland Lake Gold, First Cobalt)

FRANK BASA P.ENG

CEO and Chief Metallurgist, 40+ years of exploration, milling, and metallurgy

Silver to explode higher

Reasons to Invest

Highest-grade inferred silver resource at 7.5 million ounces at 8,582 grams per tonne

Highest-grade drilled silver grade at 89,000 grams per tonne

Targeting resource of 30-100 million ounces silver with ongoing drill program

Agnico-Eagle and Teck started here and operated for many years in the silver camp

Infrastructure in place + High Grade Gravity Mill capable of pouring 3 million oz/yr of silver dore bars

Experienced operational and exploration team from Agnico-Eagle silver mining operations

Expect silver to continue to outpace gold. Silver ready to explode to the upside

APPENDIX

TSX-V: NTH . OTCQB: CCWOF . FF: QN3

Path to Production

Re-20x Technology

- \$200K MICA grant (June 2025)
- 1,000-hour pilot SGS Lakefield program

Commercial Potential

- Containerized 40-ft modular units
- Deploy directly at mine site
- Scalable onsite and other viable to be used at other properties in the Camp

Recovery Permit

- Ontario IPIP: 80-day fast-track policy
- Ministry invited Nord to submit application
- No closure plan required

Processing Scope

- Castle + Beaver tailings
- Gowganda legacy deposits
- Toll processing for adjacent properties
- Grades up to 786,809 g/t in concentrates

Nord Precious Metals Sustainability

Environmental

Mining and processing of metals critical **for the clean energy transition.**

Rehabilitation of past-producing properties through re-processing tailings and restoring forested areas and trails.

Development and use of **clean processes** for Temiskaming Testing Labs and Re-20x

Social

Agreements with **Matachewan First Nation, Temagami First Nation, and the Teme-Augama Anishnabai** to ensure responsible development of properties within First Nations traditional territory.

Governance

Our values are guided by those laid out by the **Responsible Mining Foundation.** We undertake the appropriate engagement that each stakeholder requires for their needs.

Castle East Project

First Ever Resource at the Camp

Mineral Resource Estimate at Castle East (43-101)*

	Tonnes	Ag g/t	Co g/t	Cu g/t	Ni g/t	AgEq g/t	Ag oz	AgEq oz
Zone 1A	8,100	7,960	946	349	790	8,042	2,073,000	2,094,200

Average Silver Grade: 8,582 g/t (**250 Ag oz/ton**)

Total: 7.5 m oz Inferred Resource

*Now regarded as historical resource. Mineral resources that are not mineral reserves do not have demonstrated economic viability. For full details, see the following report filed on Sedar and on the Company's website: NI 43-101 Technical Report Update for Castle East, Ontario, Canada, Effective date: 30 April, 2021 Issue date: 25 May, 2021 prepared by GoldMinds Geoservices Inc. by Independent QP Merouane Rachidi, P. Geo., Ph.D in accordance with National Instrument 43-101. Mineral Resource is reported with mineable shape cut-off grade equivalent to 125\$USD (258 g/t AgEq) including mining, shipping and smelting cost with recovery of 95%.
